

## Art Intent

**Art is a fabulous subject in the school curriculum which allows pupils to consider their own lives and learn about wider, global cultures. Pupils will explore their own creativity and understand how this fits into the bigger picture through community projects and exhibitions of their work where possible. The aim is to raise pupils skills and confidence and help them to realise that art and design is a vital part of our society and can enrich their lives now and in the future.**

The art and design intention is to ensure that all pupils:

- produce creative work, exploring their ideas and recording their experiences
- become proficient in drawing, painting, sculpture and other art, craft and design techniques
- evaluate and analyse creative works using the language of art, craft and design
- know about great artists, craft makers and designers, and understand the historical and cultural development of their art forms.
